**Advance Software Engineering
Lab Assignment – 4**

Blueprint for the web application which I done in this assignment is developed using wireframes in Visio 2013. Three wireframes for Login, Registration and Home pages are created.

The diagram is a wireframe for a login page, enclosed in a rectangular border. In the top-left corner, the word "Login" is written. The main area contains two input fields stacked vertically. The first field is preceded by the label "Usemame" and contains the text "rajmunnangi". The second field is preceded by the label "Password" and contains a series of asterisks "*****". Below these fields are two buttons: "Login" on the left and "Register" on the right. Each button is represented by a rectangle with a horizontal gradient bar across its middle.

Login

Usemame rajmunnangi

Password *****

Login Register

Registration Form

First Name	<input type="text" value="Raj Kiran Reddy"/>	Middle Name	<input type="text"/>	Last Name	<input type="text" value="Munnangi"/>
Email	<input type="text" value="rajmunnangi61@gmail.com"/>				
Username	<input type="text" value="rajmunnangi"/>				
Password	<input type="password" value="*****"/>	Re-enter Password	<input type="password" value="*****"/>		
DOB	<input type="text" value="MM"/>	<input type="text" value="DD"/>	<input type="text" value="YYYY"/>		
*AGE VERIFICATION IS REQUIRED					
Gender	<input checked="" type="radio"/> Male	<input type="radio"/> Fe-Male
